## HOW TO USE:

Know the size of your lawn before you begin. Be sure not to overapply.

Read and follow all Directions for Use on the label of the product that you are applying.

Set spreader over pavement when filling so any spilled product can be swept up. Holds 1,500 sq ft. of product.

Turn the orange dial to correct setting, see settings below.

Begin walking, pull trigger and turn crank clockwise to apply product. Walk at a steady pace (4 ft per second).

## SPREADER SETTINGS:

To increase application rate, adjust spreader setting to a higher number. Application rates may vary depending on crank and walking speed.

If for any reason you the consumer are not satisfied with the results after using this product, you are entitled to get your money back. Simply send us proof of purchase and we will mail you a refund promptly.
